

Ranked Top 100 fastest growing companies in Dallas-Fort Worth by SMU

Accelerating Google Cloud Solutions for Startups and SMBs

Build | Optimize | Scale

100% Customer Success • 100+ Google Cloud Projects Completed Successfully • 30+ Professional Certifications

Data & AI

- Vertex AI
- Gemini Enterprise
- Document AI
- BigQuery
- Looker Studio
- Dataflow
- Dialogflow
- AgentZone

Infrastructure

- GKE
- Google Compute Engine
- Terraform
- Storage/DB
- Networking
- DevOps
- Cloud Monitoring & Logging
- Cloud Build
- CI/CD

Application Modernization

- Cloud Run
- GKE
- Firebase
- Web, Mobile & MVP/POC
- Google Maps & Route Optimization

Technology Advisory

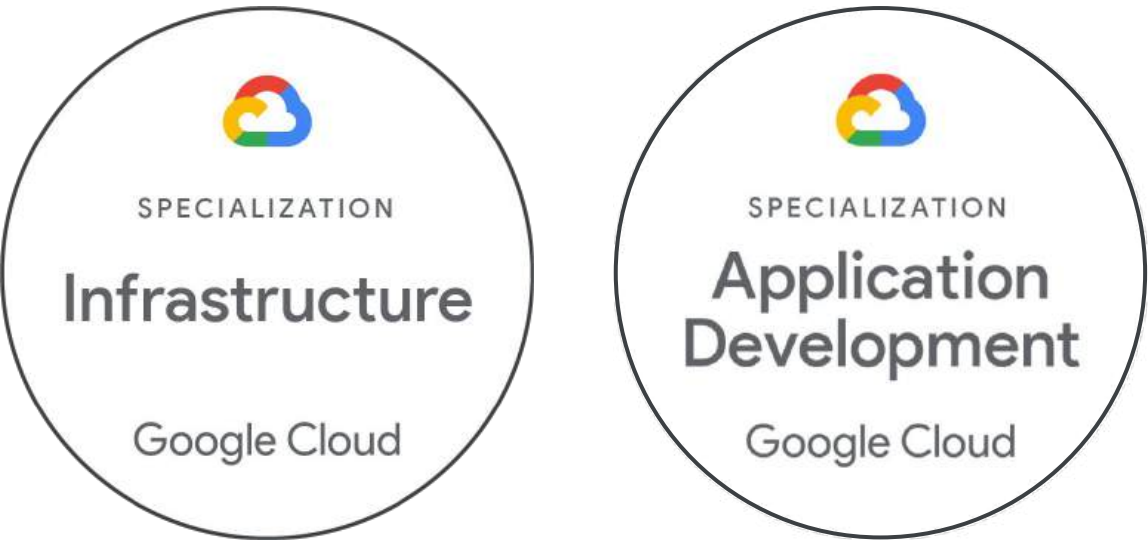

- Technology Strategy Roadmap, POCs & MVP
- Agile Project Management
- Software Architecture Assessment
- Digital Transformation

GCP Support

- CloudCare (Managed Services)
- Zenta Pulse (SCC)
- Backup & Disaster Recovery
- Ransomware & Cryptomining Protection
- Application Maintenance & Support

Customer Journey with D3V		Solution	
Getting Started	Google Cloud Education, Credits, Startup Readiness Support	✔ D3V Academy & Navigator ✔ Cloud Foundations Workshop	
Exploring & Prototyping AI	Understand AI opportunities and quickly build and test integrations	✔ AI Discovery Workshop ✔ Cloud Architecture Workshop	✔ AgentZone ✔ Gemini Enterprise
Exploring Data Solutions	Understand Data Streaming, Analytics, and Visualization Solutions	✔ BQ Foundation & Assessment ✔ Professional Services (see above)	✔ Document AI Assessment
Application Development	Understand Application Development or Modernization options	✔ Software Architecture Assessment ✔ Professional Services (see above)	✔ Web, Mobile & MVP/POC
Secure Deployment	Build, secure, deploy and scale workloads with confidence	✔ Cloud Security Posture Assessment ✔ Professional Services (see above)	✔ Zenta Pulse for Security
Scaling with Autonomy	Automate operations and optimize human workload	✔ Zenta Pulse for Autonomous Mgmt ✔ CloudCare Plus with QBR	

Our Specialization

Case Studies

Industry	Case Studies
Real Estate CRM Firm Data & AI	A real estate CRM firm automated manual data extraction from legal documents using Google's Document AI. This solution boosted efficiency, improved accuracy, and cut operational costs, allowing for streamlined transactions and scalable growth.
Healthcare Analytics Firm Cloud Engineering	A healthcare analytics firm cut cloud costs by 70% by moving from a single-tenant setup to a multi-tenant architecture using Google Cloud's Managed Instance Groups, improving scalability and onboarding efficiency.
Manufacturing Firm Application Modernization	A manufacturing firm replaced its legacy desktop software with a modern SaaS solution on Google Cloud. This transformation cut steel estimation time by 75% and reduced costs by 30%, all while eliminating downtime and simplifying updates.
Startup Enablement Technology Advisory	We guided a startup through the Google for Startups Cloud Program, securing significant cloud credits. Our strategic roadmap positioned them for successful fundraising and rapid growth.
Travel & Recreation Company Application Modernization	A travel and recreation company accelerated its feature release cycle by optimizing its Firebase backend infrastructure. This allowed for rapid innovation and significantly improved the platform's overall performance and scalability.
Global Marketing Agency Data & AI	A global marketing agency can now identify brands in real-time from live video streams. We developed an automated pipeline using Google's Gemini on Vertex AI to extract brand intelligence, enabling hyper-personalized advertising without manual intervention.
Blockchain Technology Company Data & AI	A blockchain firm faced scaling challenges and manual, error-prone deployments on virtual machines. We migrated their workloads to Google Kubernetes Engine (GKE) and implemented a CI/CD pipeline, enabling faster releases, simpler operations, and improved scalability.

Zenta Pulse - Your Autonomous Cloud Management Platform

Discover Zenta Pulse, our AI-driven platform that brings together cost monitoring and cloud security into one dashboard. Designed for small and medium businesses

- Unified view of spending, performance and risk.
- Prevent surprises before they hit your budget or your infrastructure.
- Intuitive dashboards + conversational AI assistant “Ollie” for instant support

Starts with a Free Cloud Security Posture Assessment
