by

35 Certified Cloud
Experts

Most SMBs
underestimate
their exposure:

- 73% lack cloud security expertise
- 80% face incidents yearly
- \$4.5M average cost of a breach

Your Google Cloud deserves better **visibility** and **control**.

Our expert-led assessment evaluating 10 key areas of your GCP environment, delivering a prioritized, actionable roadmap to remediation.

Data Protection

Secure sensitive data across all cloud resources.

Identity & Access Management (IAM)

Prevent excessive permissions & access risks
