

Optimize Your Cloud Costs & Security

Simplify operations, Secure your cloud, and Save costs with Zenta Pulse, AI-powered insights backed by real human expertise.

Our Foundation: Simplifying Cloud Complexity

Born from D3V's Google Cloud expertise, Zenta helps teams take control of cloud chaos. At our core: Security and FinOps work better together. By uniting security, finance, and operations, we you reduce risk, control costs and get the most from every cloud dollar.

D3V Technologies

At D3V Labs, we build next-gen AI and Cloud solutions to help growing businesses thrive. Through research, partnerships, and product innovation, we deliver cutting-edge tools and solutions that extend D3V's mission in the cloud.

All of Zenta's FinOps, Security, and Google Cloud Management in one AI-powered platform.

Stay Ahead of Cloud Costs: Monitor usage and spending in real time to drive smarter financial decisions.

No Surprises, Just Control: Detect and investigate abnormal cloud spikes early, protecting your bottom line with FinOps-aligned insights.

Smarter Cloud Teamwork:

Break down silos with a proactive FinOps approach, boost accountability, cut cloud waste, and drive smarter, cross-team spend decisions.

Cloud Visibility, Simplified: Gain clear high-level clarity into your Google Cloud architecture with an interactive, customizable cloud map.

Map. Detect. Optimize: Spot security risks and savings in real time, no guesswork, just smart, contextual optimization.

Illuminate Architecture Links: See your architecture's full story—from top-level views to critical dependencies. See what downstream services are affected before you deploy.

Full Coverage. Fewer Surprises: Asset discovery ensures your security coverage is as broad as your Google cloud footprint.

Cut Risk, Not Budgets: Automated scanning uncovers vulnerabilities early, reducing breach costs and remediation time.

Fix Fast, Stay Secure: We proactively intervene and remediate identified security issues helping you stay ahead of threats, reduce manual workload, and prevent costly cloud disruptions.

Hi, I am Ollie – How may I help you?

Whether it's cost anomalies, misconfigurations, or security risks, get the answers you need instantly and in plain English from Ollie our conversational agent powered by Vertex AI.
